

**Bowker Biography:**  
**Melanie Calitri Holden**

Melanie Calitri Holden believes in the power of a wish to set the unseen forces of the Universe to work, helping us achieve our ultimate dreams. As she observed her three- year-old daughter, Yana, make wishes that miraculously came true, Calitri Holden decided to adopt that same sense of wonder. She discovered that underneath our adult skepticism is a belief so strong that it has unparalleled power to change our world.

As the author writes, “Even if you had a rough childhood, that Spirit inside you knows that your birthright is to create, accomplish, succeed. Your birthright is to be loved, endlessly and unconditionally.” She says, “The magic of St Nicholas offers a fun and effective way to drop our seriousness in favor of innocence and faith.”

Melanie Calitri Holden is a guest on radio and national television, teaches workshops, teleclasses, and is available for individual sessions. She is Owner and Director of Physica Center for Healing and Education, providing traditional and alternative therapies. A physical therapist with over 20 year’s experience, she sees real miracles happening everyday to people who were told by their doctors, “There’s nothing more we can do. She lives in beautiful New Hampshire with her husband and three children.

Anthony D'Agostino is an award-winning designer and a nationally recognized illustrator. His awards for excellence in design and illustration include Addy Awards, CA and Print Magazine Awards. He has illustrated numerous books, among them the best-sellers, "The Angel Book" and "Angel Voices" for Simon & Schuster.
